

SAVIO RODRIGUES

Surrey, England, UK | savorodrigues05@gmail.com | [linkedin](#) | [github.com](#) | [Portfolio](#)

Summary

Here's the updated summary from the CV:

"Full-stack software developer with hands-on experience building and deploying web applications, Android apps, and developer tools across JavaScript, PHP, Kotlin, React Native, and Python. Currently completing an MSc in Computer Science at the University of Greenwich, with recent coursework in cybersecurity and software engineering. Proven ability to deliver real-world projects from concept to deployment, including a student housing platform and a GitHub profile analyser. Passionate about clean code, user-centric design, and continuous learning in the ever-evolving tech landscape."

Education

University of Greenwich

MSc Computer Science

2025 – 2026

London, UK

Kingston University

BSc Computer Science

2021 – 2024

Kingston upon Thames, UK

Harrow College

BTEC Level 3 Extended Diploma in IT

2019 – 2021

London, UK

Projects

Academimate | [Live Demo](#) | [GitHub](#) | PHP · MySQL · JavaScript · MVC · Agile

- Built a full-stack student housing and roommate matching platform as a **final year project**, serving real university students with live deployment
- Implemented **MVC architecture** with a secure **PHP** backend, **MySQL** relational database, and responsive HTML/CSS/JS frontend
- Led requirements gathering from real stakeholders, wireframing, and iterative prototyping using **Agile (Scrum & Kanban)**

SearchDev — **GitHub Profile Analyser** | [Live Demo](#) | [GitHub](#) | Vanilla JS · HTML/CSS · GitHub REST API · Netlify

- Built and deployed a **GitHub profile analyser** that fetches live repo data via the GitHub API and visualises developer stats — shipped solo in one day
- Designed a clean dark UI with dynamic stat cards; **Compare feature** in progress to benchmark two developer profiles side by side

Real Estate Manager | [GitHub](#) | React Native · Expo · iOS · Android · Agile

- Co-developed a cross-platform mobile app using **React Native** and **Expo** enabling landlords to manage property listings, tenants, and in-app communications on iOS and Android
- Implemented property photo uploads, in-app messaging, and live property status updates; used **Git & GitHub** for collaborative version control with **Agile** sprint delivery

Bird Watcher Android App | [GitHub](#) | Kotlin · Firebase Firestore · SQLite · Android

- Android app in **Kotlin** with species tracking, photo capture, native geolocation, and **RecyclerView** UI; integrated **Firebase Firestore** cloud sync with local **SQLite** for offline-first consistency
- Built as a **4-person team** using **Azure DevOps** for sprint planning and version control; designed offline-first architecture so core features remain available without a network connection

Recipe Box E-commerce Platform | [Team Project](#) | PHP · MySQL · HTML · CSS · JavaScript · MVC

- Co-developed a responsive full-stack e-commerce platform for recipe box subscriptions, including user dashboards, subscription flows, and admin management tools
- Applied **MVC architecture** for a clean, scalable backend; collaborated in a team using **Agile** methodologies for iterative feature delivery

Work Experience

Housing Market Research Intern

Sep 2019 – Oct 2019

AN Estates

Harrow, London, UK

- Researched and recorded property lettings data in Excel; analysed energy performance certificates (EPCs) using government resources

Certifications

AWS Educate: Introduction to Generative AI — Amazon Web Services

Issued Mar 2025

Introduction to Large Language Models — Google

Issued May 2026

Technical Skills

Languages: Python, PHP, JavaScript, Kotlin, SQL, Java

Frameworks & Libraries: React, Node.js, Express, React Native, Electron, Bootstrap

Databases: MySQL, SQLite, Firebase Firestore

Tools & Platforms: Git, GitHub, Android Studio, VS Code, AWS, Agile/Scrum, Manual Testing
