Summary

Computer Science MSc graduate with practical experience from web and mobile projects. Built a PHP/MySQL housing platform deployed and a JavaScript GitHub profile analyzer; contributed to Kotlin and React Native apps. Looking for a graduate or junior software developer role.

Technical Skills

Languages: JavaScript, PHP, Kotlin, Python, Java, SQL
Frameworks and Libraries: React, Node.js, Express, React Native, Expo, Electron, Bootstrap
Databases: MySQL, SQLite, Firebase Firestore
Tools and Practices: Git, GitHub, Android Studio, VS Code, AWS, Agile/Scrum, manual testing

Education

University of Greenwich — London, UK
MSc Computer Science — 2025–2026 (awarded June 2026)

Kingston University — Kingston upon Thames, UK
BSc Computer Science — 2021–2025 (awarded June 2025)

Harrow College — London, UK
BTEC Level 3 Extended Diploma in IT — 2019–2021

Projects

AcademiMate – Student Housing Platform | PHP, MySQL, JavaScript, MVC

- Built and deployed a student housing and roommate-matching web platform using PHP, MySQL, and a responsive HTML/CSS/JavaScript interface.
- Applied MVC architecture and gathered requirements from stakeholders; developed and refined prototypes using Scrum and Kanban practices.

SearchDev – GitHub Profile Analyses | JavaScript, HTML/CSS, GitHub REST API

- Built and deployed a web app that retrieves the GitHub profile and repository data and presents developer statistics in a responsive interface.
- Implemented profile, repository, and READ-ME views, with sanitization for user-supplied content rendered by the app.

Real Estate Manager | React Native, Expo

- Co-developed a cross-platform mobile app for landlords to manage property listings, tenants, and in-app communication.
- Implemented photo uploads, messaging, and property status updates; collaborated using Git, GitHub, and Agile sprints.

Bird Watcher Android App | Kotlin, Firebase Firestore, SQLite

- Developed an Android app with species tracking, photo capture, geo-location, and a Recycler View interface.
- Integrated Firestore cloud sync with SQLite local storage to support offline use; worked in a four-person team using Azure DevOps.

Recipe Box E-commerce Platform | PHP, MySQL, JavaScript, MVC

- Co-developed a responsive subscription platform with customer dashboards and administrative tools, using MVC architecture in an Agile team.

Work Experience

Housing Market Research Intern — Sep 2019–Oct 2019
AN Estates, Harrow, London, UK

- Researched and recorded property lettings data in Excel and reviewed Energy Performance Certificates using government resources.
- Recorded property and lettings information in Microsoft Excel.
- Checked Energy Performance Certificate (EPC) ratings using the UK government's online register and recorded the results.
